LEGEND

- 100 YR FEMA FLOODPLAIN
- PRELIMINARY PROP. 100 YR ULTIMATE DEVELOPMENT FLOODPLAIN
- PEDESTRIAN CIRCULATION PATH

NOTE:  
"THE FLOODPLAIN ON THIS MASTER DEVELOPMENT PLAN ARE ESTIMATED AND SUBJECT TO CHANGE. APPROVAL OF SUBDIVISION PLATS ASSOCIATED WITH THIS MASTER DEVELOPMENT PLAN IS SUBJECT TO THE REVIEW AND APPROVAL OF A STORM WATER MANAGEMENT PLAN IN ACCORDANCE WITH APPENDIX B, SECTION 35-B119 OF THE CITY OF SANANTONIO UNIFIED DEVELOPMENT CODE."

REVISION DESCRIPTION

- REMOVED INTERSECTION OF SUNDANCE FALL AND STAR GLADE. SHORTENED STAR GLADE INTO CUL-DE-SAC AND REVISED LOT LAYOUT ON WEST SIDE OF SUNDANCE FALL.
- REVISED LAYOUT OF UNITS 6, 7, AND 8 SUCH THAT THE OVERALL DRAINAGE SYSTEMS BETTER MATCHED THE NATURAL TOPOGRAPHY.

Re: Sundance Subdivision (Amendment)

MDP # 820- A

Dear Mr. Mott:

The City Staff Development Review Committee has reviewed the amendment to Sundance Subdivision Master Development Plan (MDP) # 820-A. Please find enclosed a signed copy for your files. Your plan was accepted however please note the following:

- In consideration of public safety and convenience, excessive grades by reason of topography should be avoided in street layouts and arrangements.
- Any access and R.O.W. issues along state facilities will need to be resolved with the Texas Department of Transportation (TXDOT). For information about these requirements you can contact TXDOT at 615-5814.
- **Development Services Department Engineering – Street and Drainage** has indicated as part of their conditional approval, the following conditions shall be met:
  1. The above referenced MDP is approved with the following conditions:
    - a. Resolve the intersection issue between Sundance Walk & Star Glade in Unit 1. UDC Section 35-506(f) states that "the centerline offset of intersections shall be at least 175 feet.
    - b. Add a note stating that all intersections shall comply with clear vision area requirements in accordance with UDC Section 35-506(d)(5).
    - c. It appears that the cul-de-sac in Unit 4 is greater than 500 feet in length, so it will require a turnaround right-of-way of 120 feet in diameter.
    - d. Show sidewalks on Potranco Road and connecting sidewalks at both entrances.

2. It should be understood that this is a general review of a conceptual plan and that **all** technical requirements of the Unified Development Code for Streets & Drainage shall be complied with.
- This development will need to comply with tree preservation ordinance #85262. For information about these requirements you can contact Tree Preservation at 207-0278.
  - **Historic Preservation** The information submitted for the above-referenced request has been reviewed by the San Antonio Historic Preservation Office (HPO) staff according to the city's Historic Preservation and Design Section of the Unified Development Code (Article 6 35-630 to 35-634). The review focused on the possible effects of the proposed platting, but more importantly, on the possible effects of any future development of the subject property, on archaeological resources. Disturbance of any site or removal of artifacts from any site within the city without prior review and written clearance by the City Historic Preservation Office (HPO) and/or the State Historic Preservation Office (SHPO) is a violation of the San Antonio Uniform Development Code and/or the Antiquities Code of Texas. Also, if a federal agency is involved (for example, with funding, licensing, permitting, or oversight) in development or regulation of a property, sites within the property are protected under the National Historic Preservation Act. Both underground and ground level portions of sites are included as well as sites found after clearance is obtained.

The Texas Sites Atlas indicates that no archaeological/architectural sites have been previously identified within the above referenced property. However, staff of the HPO believes there is a **high probability** that the property may contain sites, some of which may be significant. An historic agricultural complex may be located within the project area. Thus, before any work that might affect any sites is begun, we recommend a qualified professional conduct an archaeological/architectural investigation of the property. The investigation should be performed according to Archeological Survey Standards for Texas, and any previously identified sites should be reexamined and reevaluated, if any. A list of qualified archaeological consulting firms is available on line at [www.c-tx-arch.org](http://www.c-tx-arch.org). The consultant may need to obtain an antiquities permit from the SHPO prior to starting the investigation. A report of findings should be prepared according to the Council of Texas Archeologists [CTA] Guidelines for Cultural Resource Management Reports and submitted to the HPO and SHPO for review. Copies of the survey standards and the CTA guidelines may be obtained by calling the SHPO at 512-463-6096 or writing to P.O. Box 12276, Austin, Texas 78711-2276. Law allows both the HPO and SHPO 30 days from receipt for reviews.

If no significant sites are found, after the HPO concurs, development may proceed throughout the property. If significant sites are found or were previously identified, before any

construction work occurs near the sites, a plan for avoidance or mitigation must be prepared and submitted to the HPO and/or SHPO for review. Upon concurrence by the CPO/SHPO, construction work may proceed in areas where sites are not present. When written approval of the site treatment

plan is obtained from the HPO and SHPO, construction work in the remaining areas of the property may proceed according to the plan. If a previously unidentified site is encountered during construction work, activities should be immediately stopped in the vicinity and the HPO and SHPO notified.

If there are any lands or easements owned or controlled by the State of Texas or any of its political subdivisions within the property, or if there is any federal agency involvement or jurisdiction relating to the property or its development, the THC may require other archaeological compliance efforts additional to those required by the HPO.

If there are any questions or additional information regarding archaeological sites is needed, please call me at 210-207-7306.

- **Storm Water Engineering** has reviewed the Sundance (MDP) Master Development Plan submittal and comments are as follows: Be advised that the FEMA FIRM 100-year floodplain is inundating proposed lots on the Master Development Plan. This area will require a letter of Map Revision or Conditional Letter of Map Revision at the time of platting.
- **Bexar County Public Works** has indicated as part of their conditional approval, the following conditions shall be met:
  1. It is understood that this MDP is a conceptual plan and all regulations will be addressed at the time of platting.
  2. Bexar County reserves the right to address Driveways, Street Design, Sight Distance, ADA requirements, Drainage and Flood Plain issues at the time of platting.
- It will be expected that you will plat all of the property depicted in your (MDP) Master Development Plan, to include floodplains, drainage areas and open space.

Mr. Classen  
Page 4  
July 28, 2005

- I would encourage you to work closely with the school district, so that they can plan accordingly.

Please note that this action by the committee does not establish any commitment for the provision of utilities, services or zoning of any type now or in the future by the City of San Antonio. If the proposed development is not platted in phases this (MDP) Master Development Plan will be invalid.

**All Platting will have to comply with the Unified Development Code, Master Plan and Major Thoroughfare Plan for the city of San Antonio.**

If you have any questions regarding this matter, please contact Mr. Michael O. Herrera, at (210) 207-7038.

Sincerely,

Roderick J. Sanchez, AICP  
Assistant Development Services Director
